ORAL PRESENTATION INSTRUCTIONS

ORAL PRESENTATION (15%)

The assignment aims to evaluate students’ ability to read, understand, and summarise reading articles and to convey the content to others. It requires them to display their reading, writing and listening skills learnt throughout the course. They are also expected to display their speaking skills by giving an eloquent oral presentation and articulating words accurately during the presentation. Students are allowed to choose any topic from various themes such as travel, technology, health, customs, sports, environment, and entertainment. The presentation must be informative and interesting, and the topic must be about something that the audience has little or no knowledge about. The presentation is 10 - 12 minutes long. At the end of the presentation, students have to submit the hard copy of the Power Point slides to the instructor.

Instructions:

- This is a group assignment. Students are to form a group of 3-4 students.
- Students choose a topic for the presentation and discuss it with the instructor.
- Once the topic is approved, students find two articles (1-2 A4 pages long) on the topic for summary.
- Students write a brief summary of the two articles and submit it together with a copy of the articles to the instructor ONE week before the presentation using the template provided. 5 marks are allocated for the summary.
- Students read and identify the main or relevant information they wish to share with the class before the presentation.
- Students then organise selected information and make preparations (PPT slides and etc.) for the presentation.
- All group members must take turn to present. 10 marks are allocated for the presentation.
