AGR 3102 – PRINCIPLES OF WEED SCIENCE

ASSIGNMENT 2 (10%)

Choose a farm/field/landscape area/plantation/orchard (young crop for plantation and orchard). Explain about your chosen farm/field/landscape area/plantation/orchard on what type of crop you are going to cultivate/plant.

When you choose your farm/landscape/plantation/orchard, what weed control tactics/programs would you include, and explain why? What control method would you not include, and explain why? Please take note that you **MUST** have Integrated Weed Management approach in your program, not a single method of weed control only.

**PLEASE SUBMIT BY SECOND FACE-TO-FACE MEETUP 2015.**
